EXECUTIVE SUMMARY

The U.S. Embassy in San Jose, Costa Rica announces a Notice of Funding Opportunity (NOFO) to strengthen government through civil society engagement. U.S. Embassy San Jose intends to issue five awards in an amount not to exceed $1,500,000 in total funding. The anticipated start date for this activity is September 30, 2017, and project periods should not exceed two years. The U.S. Department of State is under no obligation to fund any of the proposals submitted under this funding opportunity.

This funding will support United States government objectives under the Central America Regional Security Initiative (CARSI). Within Central America (Belize, Costa Rica, El Salvador, Guatemala, Honduras, Nicaragua, and Panama), the United States works with partner nations to strengthen institutions to counter the effects of organized crime, uphold the rule of law, and protect human rights. Institution building is coupled with both prevention projects that dissuade at-risk youth from turning to crime and gangs and community policing projects that engage local communities on citizen security issues.

U.S. Embassy San Jose invites qualified U.S. non-profit/non-governmental organizations (NGOs) having a 501(c)(3) status with the IRS or overseas-based NGOs, U.S. and overseas-based public and private institutions of higher education, and public international organizations to submit proposals that include an implementation strategy focused on: (a) Supporting the development of strong, capable and accountable Central American governments; and (b) Central American civil society demanding government accountability without reprisal of their rights and are able to influence policy outcomes. Host-nation governments uphold the values and practices of liberal democracy; citizens hold their governments accountable for these actions.

Applicants should address the following objective:

Objective: Civil society provides support to improve basic local, municipal, or central government services. Proposals should be oriented toward activities by civil society organizations working to improve, expand or complement the delivery of government services, particularly to vulnerable and/or marginalized communities and in areas outside of the Central Valley in an effort to help create strong, capable, and accountable governments. Examples of potential activities include, but are not limited to, projects intended to improve the provision of government services, and projects that will improve the capacity of government transparency and e-government initiatives.

U.S. Embassy San Jose reserves the right to fund any or none of the applications submitted and will determine the resulting level of funding for the award. The authority for this NOFO is found in the Foreign Assistance Act of 1961, as amended.

Eligible organizations interested in submitting an application are encouraged to read this NOFO thoroughly to understand the type of project sought and the application submission requirements and evaluation process.

SECTION I – FUNDING OPPORTUNITY DESCRIPTION

BACKGROUND

Bordering the Caribbean Sea and the Pacific Ocean, Costa Rica has a total of 1,228 km of coastline (212 km on the Caribbean coast and 1,016 km on the Pacific). Drug-trafficking organizations continue to move illicit material from South America through Central America to the United States and beyond, leaving Costa Rica’s coastal and border communities, typically the most economically disadvantaged, highly vulnerable to the influence of traffickers. Strong, capable, and accountable governments are vital to respond to this threat, and civil society organizations that work with local governments to improve delivery of government services can assist vulnerable and marginalized communities outside of the Central Valley. Functional government services are critical to provide economic opportunities in local communities as attractive alternatives for at-risk populations that may turn to crime and illicit drugs for their livelihood.

Additionally, Costa Rican local, municipal, or central government efforts to combat poverty can benefit from civil society efforts to improve government services. This funding will therefore support U.S. government objectives under the Central America Regional Security Initiative (CARSi) to support strong, capable, and accountable governments.

Within Central America (Belize, Costa Rica, El Salvador, Guatemala, Honduras, Nicaragua, and Panama), the United States works with partner nations to strengthen institutions to counter the effects of organized crime, uphold the rule of law, and protect human rights. Institution building is coupled with both prevention projects that dissuade at-risk youth from turning to crime and gangs and community policing projects that engage local communities on citizen security issues.

PROJECT GOALS

The funds supporting this NOFO will focus on: (a) Supporting the development of strong, capable, and accountable Central American governments; and (b) Central American civil society demanding government accountability without reprisal of their rights and are able to influence policy outcomes. Host-nation governments uphold the values and practices of liberal democracy; citizens hold their governments accountable for these actions.

PROJECT OBJECTIVES

As applicable, proposals should specify the expected results from projects benefitting from these funds, such as the number trained; improvement in government transparency or e-government; and other improvements in basic government services that impact citizens and small business. All proposals should state clear objectives and show plans to measure project performance and contributions to meeting Objectives.

Applicants should address the following objective:

Objective: Proposals should help support strong, capable, and accountable government and facilitate citizens’ ability to hold the government accountable for its responsibilities. Civil society provides support for government services at the local, municipal, or central level, particularly to vulnerable and/or marginalized communities and in areas outside of the Central Valley in an
effort to help create strong, capable, and accountable governments. Examples of potential activities include, but are not limited to, projects intended to improve the provision of government services, and projects that will improve the capacity of government transparency and e-government initiatives. Proposals should include a methodology to serve beneficiaries before and after activities occur to measure quantitative and qualitative progress. Funds cannot be used to provide subsidies or direct employment remuneration or benefits.

### DESIRED RESULTS AND REQUIRED OUTCOME INDICATORS

By the end of the project, grantees should demonstrate that the project has improved government services for strong, capable, and accountable government as well as safer and more productive communities through improved government services.

Outcome indicators for the project are provided below. The recipient should provide output and outcome indicators in addition to the required indicators listed below. The recipient is expected to identify targets for these indicators based on what it can reasonably achieve within the performance period of the project, and based on the expected overall project results described above.

<table>
<thead>
<tr>
<th><strong>REQUIRED F- Indicator for Central America Strategy:</strong></th>
<th><strong>Required targets:</strong></th>
</tr>
</thead>
<tbody>
<tr>
<td>Number of civil society organizations (CSOs) receiving USG assistance engaged in advocacy interventions.</td>
<td>TBD</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th><strong>REQUIRED Outcome Indicators for Objective:</strong></th>
<th><strong>Required targets:</strong></th>
</tr>
</thead>
<tbody>
<tr>
<td>Number of requests for service that are addressed.</td>
<td>TBD</td>
</tr>
</tbody>
</table>

### ILLUSTRATIVE OUTPUT INDICATORS

Illustrative output indicators for funded projects are provided below. The below are examples; there are no specific output indicators required. However, the recipient must develop and provide a list of output indicators and targets appropriate for the recipient’s application.

<table>
<thead>
<tr>
<th><strong>Example Output Indicators</strong></th>
<th><strong>Illustrative targets:</strong></th>
</tr>
</thead>
<tbody>
<tr>
<td>Software developed to facilitate public requests for services.</td>
<td>TBD</td>
</tr>
</tbody>
</table>

The recipient will be required to collect baseline data for all the performance management plan indicators during the first year of the project. In addition, certain terms included in the outcomes and indicators will need to be defined at the very beginning of the project so that it is possible to measure the change during and at the end of the project. Examples of such are “capacity,” “spread effect,” etc. Baseline information will be critical for both monitoring and evaluation of project progress and results.

*[END OF SECTION I]*

TECHNICAL FORMAT REQUIREMENTS

For all application documents, please ensure:
A) All pages are numbered, including budgets and attachments,
B) All documents are formatted to 8 ½ x 11 paper, and
C) All Microsoft Word documents are single-spaced, 12 point Times New Roman font, with a minimum of 1-inch margins.

Complete applications must include the following for proposal submissions:
1. Completed and signed SF-424, SF-424a [and SF424b,] submitted to Grants.gov, as well as, if applicable, your organization’s most recent audit.
2. Table of Contents (not to exceed one [1] page in Microsoft Word) that includes a page-numbered contents page, including any attachments.
3. Executive Summary (not to exceed two [2] pages in Microsoft Word) that includes:
   a) The target country(ies),
   b) Name and contact information for the project’s main point of contact,
   c) A statement of work or synopsis of the project, including a concise breakdown of the project’s objectives, activities, and expected results,
   d) The total amount of funding requested and project length, and
   e) A brief statement on how the project is innovative, sustainable, and will have a demonstrated impact.
4. Proposal Narrative (not to exceed ten [10] pages in Microsoft Word). Please note the ten-page limit does not include the Table of Contents, Executive Summary, Attachments, Detailed Budget, Budget Narrative, or NICRA. Applicants are encouraged to submit multiple documents in a single Microsoft Word, (i.e., Table of Contents, Executive Summary, Proposal Narrative, and Budget Narrative in one file).
5. Budget Narrative (preferably in Microsoft Word) that includes an explanation and justification for each line item in the detailed budget spreadsheet, as well as the source and a description of all cost-share offered. For ease of review, U.S. Embassy San Jose recommends applicants order the budget narrative as presented in the detailed budget. Personnel costs should include a clarification of the roles and responsibilities of key staff and percentage of time devoted to the project. The budget narrative should communicate to U.S. Embassy San Jose any information that might not be readily apparent in the budget, not simply repeat with words what is stated numerically in the budget.

6. Detailed Line-Item Budget (preferably in Microsoft Excel) that includes three [3] columns including the request to U.S. Embassy San Jose, any cost sharing contribution, and total budget (see below for more information on budget format). A summary budget should also be included using the OMB-approved budget categories (see SF-424 as a sample). Costs must be in U.S. dollars.

7. Attachments (not to exceed nine [9] pages total, preferably in Microsoft Word) that include the following in order:
   a) Page 1-2: Monitoring and Evaluation Plan (see below for more information on this section).
   b) Page 3: Roles and responsibilities of key project personnel with short bios that highlight relevant professional experience. This relates to the organization’s capacity. Given the limited space, CVs are not recommended for submission.
   c) Page 4: Timeline of the overall proposal. Components should include activities, and project closeout.
   d) Page 5-7: Additional optional attachments. Attachments may include further timeline information, letters of support, memoranda of understanding (MOU)/agreement, etc. For applicants with a large number of letters/MOUs, it may be useful to provide a list of the organizations or government agencies that support the project rather than the actual documentation.

8. If your organization has a negotiated indirect cost rate agreement (NICRA) and will include NICRA charges in the budget, your latest NICRA must be included as a .pdf file. This document will not be reviewed by the panelists, but rather used by project and grant staff if the submission is recommended for funding and therefore does not count against the submission page limitations, as described above. If your proposal involves sub-grants to organizations charging indirect costs, please submit the applicable NICRA also as a .pdf file (see below for more information on indirect cost rates). Specify if your organization elects to charge the de minimis rate of 10% of the modified total direct costs.

Note: U.S. Embassy San Jose retains the right to request additional documentation for those items not included on this form.

INFORMATION ON STANDARD FORMS
Please see Tab D for instructions for completion of Standard Forms 424, 424A, and 424B.

OFFICE OF MANAGEMENT AND BUDGET (OMB) CIRCULARS
Organizations should be familiar with 2 CFR 200 on cost accounting principles. For a copy of the OMB circular cited, please contact Government Publications or download from http://www.ecfr.gov/cgi-bin/text-idx?tpl=/ecfrbrowse/Title02/2cfr200_main_02.tpl. Overseas-based nonprofit organizations are legally required to comply with 2 CFR 200. Public international organizations retain their privileges and immunities as such, but are encouraged to address this OMB Circular.
AUDITS
The recipient’s proposal should include the cost of an audit that:
1. Complies with the requirements of 2 CFR 200 Subpart F “Audit Requirements;”
2. Complies with the requirements of American Institute of Certified Public Accountants (AICPA) Statement of Position (SOP) No. 92-9, "Audits of Not-for-Profit Organizations Receiving Federal Awards;"
3. Complies with AICPA Codification of Statements on Auditing Standards AU Section 551, "Reporting on Information Accompanying the Basic Financial Statements in Auditor-Submitted Documents," where applicable. When the U.S. Department of State is the largest direct source of Federal financial assistance (i.e., the cognizant Federal Agency) and indirect costs are charged to Federal grants, a supplemental schedule of indirect cost computation is required;
4. A non-Federal entity that expends $750,000 or more during the non-Federal entity's fiscal year in Federal awards must have a single or program-specific audit conducted for that year in accordance with the provisions of 2 CFR 200 subpart F.
   The audit costs shall be identified by 2 CFR 200.425.

INDIRECT COST-RATE
An organization with a negotiated indirect cost rate agreement (NICRA) negotiated with a cognizant Federal government agency other than the U.S. Department of State must include a copy of the cost-rate agreement. Applicants should indicate in the proposal budget how the rate is applied and if any of the rate will be cost-shared. Per 2 CFR 200.414, any non-Federal entity that has never received a negotiated indirect cost rate, except for those non-Federal entities described in Appendix VII to Part 200—States and Local Government and Indian Tribe Indirect Cost Proposals, paragraph D.1.b, may elect to charge a de minimis rate of 10% of modified total direct costs (MTDC) which may be used indefinitely. As described in 2 CFR 200.403, factors affecting allowability of costs, costs must be consistently charged as either indirect or direct costs, but may not be double charged or inconsistently charged as both. If chosen, this methodology once elected must be used consistently for all Federal awards until such time as a non-Federal entity chooses to negotiate for a rate, which the non-Federal entity may apply to do at any time.
Proposals should include the following components:
- Introduction and Problem Statement
- Planned Activities
- Indicators

**Problem Statement and Rationale:** Describe the problem and how the project will achieve or contribute to achieving a sustainable solution and a measurable outcome. The applicant should explain the extent of existing assistance within the particular geographic area, and how the proposed intervention may complement (or differ from) other similar interventions. The implementer should also explain, as necessary, the particular experience and qualifications it brings to the project. The rationale should also reflect understanding of the priorities and policies of the bureau/U.S. Embassy San Jose or project with which this agreement is associated.

**Planned Activities and Indicators:** Describe the planned activities, and relevant stakeholders for implementation. The implementer should highlight key stakeholders and their expected role in the project, along with any contingencies. The implementer should list assumptions that are dependent on the ultimate success of the project. This could include elements like geographic location, coordination efforts with other international organizations, or political will from host governments, private sector, and NGOs. As appropriate, limited contingency possibilities should be included in the proposal, in case the initial planning assumptions are not met. Example of a planned activity and contingency:

<table>
<thead>
<tr>
<th>Sample Planned Activity</th>
<th>Contingency</th>
</tr>
</thead>
<tbody>
<tr>
<td>Government services workshops in collaboration with the central Government of Costa Rica, focused on improving knowledge of protocols for delivery of a government service. (Example: the equitable provision of public services.)</td>
<td>If the appropriate agency of the Government of Costa Rica does not engage at the expected level, project team will look to municipal or local governments to assist in convening key stakeholders.</td>
</tr>
</tbody>
</table>

In the proposal, there should be a clearly defined link between each of the following elements as delineated:

**Problem Statement** → **Planned Activities/Inputs** → **Process Indicators** → **Output Indicators** → **Outcome Indicators** → **Impact**

**Process Indicators** measure the activity that has been completed. Please delineate the specific activities to be conducted, such as workshops, roundtables, trainings, forums, exchanges, policy dialogues, etc. All indicators must include targets. Example of a process indicator:

| Process Indicator | 50 government workers trained in protocols or standards for providing a particular government service |

**Output Indicators**, otherwise known as deliverables associated with the agreement, should be included. Unlike process indicators, outputs are what is produced, and are often tangible. At this
level, it is the measurement of ability, knowledge, skills, or access. All indicators must include targets. Example of an output indicator involving the same participants:

| Output Indicator | 80 percent of participants demonstrate at least 75 percent cognition of standards to effectively provide government services. |

**Outcome Indicators** measure the change in system, behavior, or practice. Expected outcomes are the results that come from a series of activities that are necessary to achieve impact. All indicators must include targets. Example of an outcome indicator:

| Outcome Indicator | 30 percent of government services offered by the targeted agency(ies) begin to implement new protocols as a result of participants’ participation. |

All indicators **must** include measurable, numerical targets, which should serve as the foundation for monitoring and evaluation efforts. Ultimately, proposed activities and achievement of indicator targets will lead to impact.
TAB B: PROJECT MONITORING PLAN

U.S. Embassy San Jose will work with recipient organizations to implement the appropriate monitoring plan that meets both the needs of U.S. Embassy San Jose and the implementing partner. Incorporating a well-designed monitoring component into a project is one of the most efficient methods of documenting the progress and potential success of a project. Successful monitoring depends on the following:

- Setting objectives that are specific, measurable, attainable, results-focused, and placed in a reasonable time frame (SMART);
- Linking project activities to stated objectives;
- Developing key performance indicators that measure realistic progress towards the objectives.

U.S. Embassy San Jose expects implementing organizations will track participants or partners as appropriate and be able to respond to key evaluation questions, including satisfaction with the project/training, information learned as a result of the project/training, changes in attitude and behavior as a result of the project, and effects of the project on institutions in which participants work or partner with. Applicants should include the monitoring and evaluation process in their timeline.

Recipients will be required to provide reports with an analysis and summary of their findings, both quantitative and qualitative, in regular progress reports to U.S. Embassy San Jose.

The monitoring and evaluation plan should include, at a minimum, the following elements:

- A results “Logic Model” planning document (see sample)
- Indicators, as described in Tab A, as well as details on how each indicator will be measured, frequency of the measurements, units of measure, etc. Provide indicators at the output and outcome levels. Monitoring and evaluation plans should include a chart component that clearly delineates indicators and targets. All indicators must include measurable, numerical targets.
- Establish, where possible, performance baseline data and expected performance targets for each indicator/outcome. In some cases, the baseline may be zero.
- Describe monitoring and evaluation tools, such as rapid assessment surveys, site visits, key stakeholder interviews, etc., that will be used.
- Plans should describe how the project’s impact and effectiveness will be monitored and evaluated throughout the project.

A minimum of three columns should be used to delineate the Embassy funding request, cost-share by applicant, and total project funding. Complete applications will include a budget narrative to clarify and justify individual line items (i.e. calculations of how the costs were derived per month or year, their necessity, and overall contribution to the project’s cost-effectiveness).

The three-column proposal line-item budget should include the following components, in the suggested format below:

LINE-ITEM BUDGET – (applicants are instructed to utilize the following Excel budget template, which includes an instruction sheet):

![Budget Template with instruction sheet](Budget Template with instruction sheet)

Before grants are awarded, U.S. Embassy San Jose reserves the right to reduce, revise, or increase proposal budgets in accordance with the needs of U.S. Embassy San Jose’s project and availability of funds.

As mentioned above, the detailed budget should also include an accompanying budget notes document that explains and justifies each line item, in the suggested format below:
A. Personnel: Identify staffing requirements by each position title and brief description of duties. For clarity, please list the annual salary of each position, percentage of time and number of months devoted to the project. (e.g., Administrative Director: $30,000/year x 25% x 8.5 months; calculation: $30,000/12 = $2,500 x 25% x 8.5 months = $5,312.).

B. Fringe Benefits: State benefit costs separately from salary costs and explain how benefits are computed for each category of employee - specify type and rate.

C. Travel: Staff and any participant travel:
1) International airfare
2) In-country travel
3) Domestic travel in Country X., if any
4) Per diem/maintenance: includes lodging, meals and incidentals for both participant and staff travel. Rates of maximum allowances for U.S. and foreign travel are available from the following website: http://www.policyworks.gov/. Per diem rates may not exceed the published U.S. government allowance rates; however, institutions may use per diem rates lower than official government rates.
5) Staff refers to grantee staff only, and not sub-grantee staff or contractors

D. Equipment: Please provide justification for any equipment purchase/rental, defined as tangible personal property having a useful life of more than one year and an acquisition cost of $5000 or more.

E. Supplies: List items separately using unit costs (and the percentage of each unit cost being charged to the grant) for photocopying, postage, telephone/fax, printing, and office supplies (e.g., Telephone: $50/month x 50% = $25/month x 12 months).

F. Contractual:
   a) Sub-grants. For each sub-grant/contract, please provide a detailed line-item budget breakdown explaining specific services. Please provide a sub-grant budget using the approved OMB budget format. (See Tab C: Budget Guidelines, above.)
   b) Consultant Fees. For example, lecture fees, honoraria, travel, and per diem for outside speakers or independent evaluators: list number of people and rates per day (e.g., 2 x $150/day x 2 days).

G. Other: These will vary depending on the nature of the project. The inclusion of each should be justified in the budget narrative. All costs must be allowable, allocable, and reasonable, and consistent with OMB guidelines. Line items such as “Miscellaneous,” “Contingency Fund,” and “Reserve Fund” are not permitted.

H. Indirect Charges: See 2 CFR 200.414, "Indirect Costs"
1) If your organization has an indirect cost-rate agreement with the U.S. government, please include a copy of this agreement. Please specify if your organization elects to charge the de minimis rate of 10% of the modified total direct costs. This does not count against submission page limitations.
2) If your organization is charging an indirect rate, please indicate how the rate is applied—direct administrative expenses, to all direct costs, to wages and salaries only, etc.
3) Do not include indirect costs against participant expenses in the Embassy budget, as it generally does not pay for these costs.

Cost Share/Cost-Effectiveness: Cost sharing is not required. Explanation of contributions should be included, whether cash or in-kind. Assign a monetary value in U.S. dollars to each in-kind contribution. If the proposed project is a component of a larger program, identify other funding sources for the proposal and indicate the specific funding amount to be provided by those sources. In addition, it is recommended that budget narratives address the overall cost-effectiveness of the proposal, including leveraging of institutional or other resources. Cost sharing or matching refers to a portion of project or program cost that is not borne by the Federal government. Grantees must follow cost sharing or matching policy as stipulated in 2 CFR 200.306. Cost sharing amounts proposed will be incorporated as part of the allowable budget items. If selected for an award, the organization will have to provide the minimum amount of cost sharing as stipulated in the budget approved by the Grants Officer. If the organization does not meet its cost-share amount stipulated in the approved budget by the end of the period of performance, the Embassy will have the option to (1) reduce its contribution in proportion to the organization’s contribution in the event that it does not provide the minimum amount of cost sharing stipulated in the budget or (2) hold the organization accountable for the amount specified in the approved budget.

SECTION V – APPLICATION REVIEW INFORMATION

The technical applications will be evaluated in accordance with the Technical Evaluation Criteria set forth below. Applicants shall organize the narrative sections of their technical applications in the same order as the selection criteria. Technical evaluation of applications will be based on the extent and appropriateness of proposed approaches and feasibility of achieving the strategic objectives, in accordance with the following criteria.

If award is not made on the initial applications, U.S. Embassy San Jose may request clarification and supplemental materials from applicants whose applications have a reasonable chance of being selected for award. Entering into discussion is part of the evaluation process and shall not be deemed by U.S. Embassy San Jose or the applicants as indicative of a decision or commitment upon the part of U.S. Embassy San Jose to make an award to the applicants with whom discussions are being held.

I. TECHNICAL EVALUATION CRITERIA

A technical evaluation committee, using the criteria shown in this Section, will evaluate the technical applications. The various functional elements of the technical criteria are assigned weighted scores, so that the applicants will know which areas require emphasis in the preparation of applications.

Where technical applications are considered essentially equal, cost may be the determining factor. Applicants should note that these criteria serve as the standard against which all applications will be evaluated and serve to identify the significant matters which applicants should address in their applications.

The relative importance of each criterion is indicated by the number of points assigned. A total of 100 points is possible.

Quality of Program Idea Rating (Total Possible 25) – Rating:
1. Responsive to the solicitation (5 points)
2. Appropriate in the country/regional context (5)

• The proposal is from a NEW APPLICANT and proposal: (2)
  o Demonstrates capacity for responsible fiscal management
  o Illustrates success in similar sized projects
COST EVALUATION

Cost will be evaluated for realism, reasonableness, allowability, allocability, and cost effectiveness. The pre-award evaluation of cost effectiveness will include an examination of the application’s budget detail to ensure it is a realistic financial expression of the proposed project and does not contain estimated costs which may be unallocable, unreasonable, or unallowable. Applications that have more efficient operational systems that reduce operation costs will be favorably considered.

Applications that maximize direct activity costs including cost sharing and that minimize administrative costs are encouraged. Other considerations are the completeness of the application, adequacy of budget detail and consistency with elements of the technical application. In addition, the organization must demonstrate adequate financial management capability, to be measured by a responsibility determination.
